

ROOTS & PATHWAYS: THE NEUROBIOLOGY OF TRAUMA AND ATTACHMENT

WORKSHOP OVERVIEW

November 15, 2019 | **9:30am - 4:30pm** | **#150 - 1815 Kirschner Rd, Kelowna, BC**

This interactive day of learning explores how brains are shaped, influenced and formed by our epigenetics, relationships and experiences. Our learning experience will be a combination of an interactive presentation, videos, case presentations, small group discussions, experiential opportunities and resource sharing. While the topic maybe difficult or appear complex at times, Deanne's playful and creative approach to understanding brains is useful and relatable in our day to day life and work with children. The workshop is designed to be relevant and useful for those who care for and/or work with children: Foster Parents, Teachers, Health Care Professionals, Counsellors, Social Workers etc.

ABOUT YOUR PRESENTER

Deanne is the founder and clinical coordinator of Stepping Stones Counselling Group. Stepping Stones is a vibrant private practice in Kelowna, BC, of therapists, social workers, occupational therapist, kinesiologists and behaviour consultant. Deanne has practiced with children, youth and families for over 20 years. She has also provided canine assisted therapy for 16 of those years. Deanne's therapeutic practice is rooted in neurobiology and understanding how experiences and relationships shape our brains. Her extensive training and experience in play and expressive therapies, EMDR, NMT (Child Trauma Academy) and Neurofeedback provide her with a vast and varied tool kit to share with workshop participants. Deanne specializes in trauma and attachment work with children and teens. She has developed groups and programs for trauma and attachment repair as well as for children who have lost a parent to death. Deanne continues to support and inspires the SSCG team to provide innovative and developmentally rich therapeutic opportunities throughout the Okanagan. Deanne's playful approach and dynamic presentations have been appreciated, locally, nationally and internationally by a variety of audiences including therapists, teachers, social workers, judges, health care professionals and supporters of healthy brains and communities. She looks forward to welcoming you and enjoying a day of learning and inspiration!
